

Cedar Group is committed to protection of the environment. The business aims to save natural resources by awareness and review of all operations employed by the Company.

This commitment extends to all areas of the business. It further aims to prevent pollution and continually improve its environmental performance in order to safeguard the quality of the environment both locally and globally.

To facilitate this, an environmental management system is documented, implemented and maintained by the Group Operations Director, in accordance with the ISO 14001:2015 standard and the Forest Stewardship Council® Chain Of Custody 40-004v2, with the authority of the Managing Director. The Environmental Policy is communicated to all employees of the organisation and is available to the public.

Objectives and targets are set and reviewed regularly by the management team.

The environmental objectives will be achieved in the following way:

- By complying with all applicable legal requirements and any other requirements set by the printing industry.
- By the involvement and commitment of all employees to the protection of the environment.
- By the elimination or reduction in the use of materials or processes which may be harmful to the environment.
- By actively seeking ways to reduce the use of natural resources.
- Wherever possible, by reducing the effect on the environment by recycling used materials.

Signed:

Tom Manser, Managing Director
